Funding helped the North Carolina Institute of Medicine convene a statewide task force charged with developing an actionable strategic plan for addressing Alzheimer’s disease and related dementias.

A new program is giving pediatric patients access to behavioral health services through privacy-protected virtual care. The goal is to offer seamless — and critical — services to children.

With its start in five North Carolina regions, Healthy People, Health Carolinas takes a community-based approach to addressing chronic health issues such as unhealthy weight, diabetes and heart disease.

CANDIDATES FOR HEALTH CARE GRANTS

- Not-for-profit hospitals
- Academic health centers
- Area health education centers
- Select health organizations in counties without an eligible hospital
- Not-for-profit licensed, in-patient, long-term care facilities

PHILANTHORPIC APPROACH

THE HEALTH CARE program area is an innovating partner that aims to improve health status and reduce health disparities in the Carolinas. Our impact can be maximized by working with health systems to identify and cultivate innovative models of care that have the potential to improve health while realizing scale and sustainability within the larger system.
